

Job Specification

For: PSV Technician

Ref: VR/01305

Job Description

As a PSV Technician, you will play a crucial role in ensuring the efficient maintenance and repair of our buses within our depot. Your prior experience in PSV Technician roles will be essential in fulfilling the responsibilities of this position.

Various Shift Patterns available

- Monday - Friday (6am-2pm/8am-4pm/10am-6pm rotating shift) £20.04phr
- Days 4 on 4 off (5am - 4pm) £22.98phr
- Nights 4 on 4 off (4pm - 3am) £22.98phr + £3.50phr shift allowance for hours worked after 6pm

Key Responsibilities:

- Conducting maintenance and repair tasks on PSVs to ensure they meet safety and performance standards.
- Diagnosing mechanical and electrical issues using advanced diagnostic tools and techniques.
- Performing routine inspections and servicing of PSVs to identify and address potential problems.
- Collaborating with other team members to ensure timely completion of maintenance tasks.
- Adhering to safety protocols and regulations to maintain a safe working environment.

Skills and Qualifications Required:

- Level 3 City & Guilds/NVQ or equivalent qualification within PSV or HGV Maintenance.
- Possession of a PSV licence is considered advantageous.
- Demonstrated diagnostic experience, particularly in identifying and resolving complex mechanical and electrical issues.
- Previous experience as an HGV, PSV, or LCV Technician is highly desirable. Strong attention to detail and the ability to work effectively both independently and as part of a team.

As a Technician, you will be responsible for assembling and maintaining various equipment. The ideal candidate will have a strong mechanical knowledge and excellent problem-solving skills. For the PSV Technician role you will need to have
