

Job Specification

For: Mobile Service Engineer

Ref: VR/01365

Job Description

Based: Newbury

Your role will be to service, maintain and repair our hire fleet which are the leading brands in their field. As we are the main dealer for Takeuchi Mini Excavators, Thwaites Dumpers, Bomag Compaction, Atlas Copco & Epiroc you will be expected to carry out warranty work plus service & repair our customers machinery. The company will provide the successful candidate with excellent training opportunities.

This is a permanent role, Monday – Friday, 42.5 hours per week.

The right candidate must be adaptable with good problem-solving & communication skills to work closely with our depot teams, customers & manufacturers.

You will need the following skills / abilities for the role of fitter / service engineer:

- Experience in servicing and repairing manufacturers plant equipment.
- Experienced in diesel engines, hydraulics, pneumatics and electrical systems.
- Trained to NVQ level 2 or 3 Plant Maintenance preferred (but not essential)
- Work effectively within a team.
- Have your own tools.

The company are a leading privately owned construction equipment specialist in Southern Britain, renowned for service and quality equipment.

You will receive a competitive salary related to experience, overtime, vehicle and excellent company benefits including pension and life assurance.
